No Tollgate News. Nothing new has developed in the turnpike situation in Garrard for several weeks. The electric lights in the Court House make the grandest improvement yet put on the handsome building. It is now neat, comfortable and safe, and does not cost as much as the dirty, smoking, dangerous coal oil lamps. How anyone, with a thimbleful of sense, can kick on this improvement is difficult to understand, but there will be a few who will comment. Such drawbacks and stumbling blocks to civilization should be chased back to the brush and briars where they so

justly belong.

Death of Mrs. Fox. Mrs. Eliza Hunton Fox, aged eightyseven, died Sunday morning at Danville, of heart failure. The funeral took place Tuesday afternoon; burial n the Danville cometery. The deceased was the widow of Judge Fontaine i. Fox, one of the most celebrated of Kentucky's great lawyers, who died ten years ago. She was a woman of remarkable physical and mental vigor, and one of wile acquaintance and relationship. Hunpreds of old stulents of Centre College who came within her motherly influence during heir school days and who are now scattered throughout the South and West, will learn of her death with leep sorrow, for many men now in public life repeatedly told her that hey traced their right living to her good counsels. Seven children survive her. Mrs. Fox was born in Aloemarle county, Va., in 1809, came to Stanford, Ky., in 1816 and moved to Danville in 1830, having for twentyeven years lived in the room in which he died.

Cheaper Freight.

THE RECORD learns, from good auhority, that an enterprising young nan, of Jessam'ne county, has underaken a plan which will be a great plessing to the merchants and citizens of Lancaster. It is this: He has purhased all of Curley's large wagons and mules, will erect a large coal yard it the big Kentucky river bridge and aul No. 1 Kentucky river coal to Laneaster, delivering it to our deale s for ed the daughter of Mrs. Gertie Bailey everal cents less per bushel than is at Mayfield, Ky., January 12, is beow charged. This, at first Duston, of Urbana. hought, sounds unreasonable, but it nust be remembered that boat rates re the cheapest in the world and, as here are no toll gates, all the expense would be for team and driver. The Curley wagons are about twice or hree times as large as the ordinary farm wagon, and the large mules have een used in pulling these full of whiskey to Nicholasville depot. The hill on other side of river is much steeper han the one on this side, and if four nules could draw a load of whisky up t, they can, of course, draw a load of erchandise up this side. At present the verdict was read Commonwealth's the freight on a car of coal is much Attorney Sweeney declared that the Masons had cleared Sherley. Representative John S. Rhea made his maiden speech and drew fourth rounds of applause from the democrats and a storm of republican hisses by declaring that if there was one place in Hades hot!er than another that place was reserved for

John Sherman. The resolution is as follows: "That all the bonds of the United States, issued, or authorized to be issued, unsued, or authorized to be issued, under the said acts of Congress hereinbefore recited, are payable, principal and interest, at the option of the Government of the United States, in silver dollars of the coinage of the United States containing 412 1-2 grains each of standard silver; and to its coinage such silver coins as a legal tender in payment of said bonds, principal and interest, is not in violation of the public faith nor in derogation of the rights of the public creditor".

A REPUBLICAN who has gradually and gracefully worked himself to the front ranks of Kentucky politics, is Hon. Sam. J. Roberts, editor of the Lexington Leader, and collector of the seventh internal revenue district. He came to Lexington from Ohio a few years ago and started the Leader, and despite the many words of discouragement and the up-hill pull, has made that paper one of the foremost in the state. Mr. Roberts has been very modest, and is one of the few people who have moved into the state who did not immediately proceed to tell Kentuckians how they must act and what they must do. From an humble editor he has risen to an important leader in politics and if we were after Journal, and they fit last week's oca job under McKinley, we would rather have the name of Sam. J. Roberts them: attached to our papers than that of any other Kentucky republican. He has tackled one job lately, though, in which he will meet his Waterloo, and that is in "harmonizing" the republi-can party in the state. There is no way under the sun by which he can eed in the latter as long as there is pie and "honna, sah" to be divided among the would-be bosses

Indeed, the frank and can did way that love-making goes on in public among the lower classes is so amazing that at first you think you never in this world will become accustomed to it, but you get accustom to a great many strange sights in Paris. Lusk acting as attorney as he said for the government wrote a warrant for Anderson's arrest charging him with disloyalty in aiding and abetting the southern rebellion and brought it to me for my signature as County Judge. I signed it and Anderson was brought before me as a court of enquiry. I taink we were about two days getting through with the investigation, Mr. taink we were about two days getting through with the investigation, Mr. Lusk making a long speech at the close of the testimony. I gave the case as I thought careful attention. The evidence showed no overt act upon the part of Anderson that I thought would justify a court in holding him in bonds, so I dismissed the case and adjourned court, and as Anderson was going out of the courthouse Judge Sam'l Lusk spoke to Anderson and told him that he was a rebel, and that he had better get out of that community. Lusk used very rough language which so alarmed Anderson that he called on me to give him a body guard to send him home. I appointed the guard who saw him safe at home. Anderson was so all med at the threats made against nim that he left his home that night for the southern army. At the same time Mr. Lusk had a similar warrant issued against J. T. McQuerry who was then under guard and his trial was to come off the next Monday. At 9 oclock of that morning I took my books and writing material and started to the courthouse, and just before I entered the door I saw tren. W. J. was to come off the next Monday. I told him I could not let him off and as a friend I requested it at his hand, as he was ready with the pen and his report of the testimony would be above suspicion. He then gave his consent, and we at once commenced the examination but did not get through with the evidence that day. We continued the next day, and R D. The American Stock Farm, of Lexington, says: The condition of affairs in Kentucky in the matter of breeding is much improved from the last two seasons. Owners of stallions report, already, a good booking, and, judging from the feeling among breeders concerning the inquiries about young trotters, the business is decidedly on the mend. That the demand is great there can be no doubt, still less is there any doubt that the supply is very limited. For this reason breeders are bound to anticipate the future, and to do this they must get foals, and therefore it is reasonable to suppose that many more mares will be bred this season than for several of those past. The fact that so many large studs are soon to be dispersed does not mean the mares now owned in them will not be mated this year, for their new own ers are more likely to breed them than their present ones. That is what they will buy them for. The large percentage, of brood mares in the State of Kentucky are owned by breeders with small studs, having an average of not more than five or ten mares, or even less, and these men are, as a rule, farmers who having passed through a most successful harvest and seeing that the business is on the mend will mate their mares this year. The younger generation of stallions will have great opportunities this season. Not only have many of them done well with their youngsters that have been on the tracks, but thoughtful breeders

Plenty of this luscious product was hanging in the woods of Bethaven durthe time of Saul and Jonathan. Their army was in pursuit of an enemy that by God's command must be exterminated. The soldiery were positively forbidden to stop to eat anything until the work was done.

A gentleman mouth and ate the honey. Judgment fell upon him, and but for special intervention he would have been slain. In my text Jonathan announces his awful mistake: "I did but taste a little honey with the end of the rod that was in my hand, and lo! I must die." Alas! what multitudes of people in all ages have been damaged by forbidden honey, by which I mean temptation, delicious and attractive, but damaging and destructive!

Corrupt literature, fascinating but deathful, comes in this category.
Where one good, honest, healthful book is read now, there is a hundred made up of rhetorical trash consume with avidity. When the boys on the cars come through with a pile of publications, look over the titles and notice that nine out of ten books are injuri ous. All the way from here to Chicago or New Orleans notice that objection able books dominate. Taste for pure literature is poisoned by this scum of the publishing house. Every book in which sin triumphs over virtue, or in which a glamour is thrown over dissipation, or which leaves you at its last line with less respect for the marriage institution and less abhorrence for the paramour, is a de pression of your own moral character. The book bindery may be attractive, and the plot dramatic and startling and the style of writing sweet as th honey that Jonathan took up with his rod, but your best interests forbid it, your moral safety forbids it, your God such bad results that you may have to say at the close of a misimproved lifetime: "I the close of a misimproved lifetime: "I the close of a misimproved lifetime: "I hough his statue in the hall crashed did but taste a little honey with the into fragments at his feet, and a scroll

rod that was in my hand, and, lo, I containing the names of the conspiramust die.' Corrupt literature is doing more to day for the disruption of domestic life than any other cause. Elopements, marital intrigues, sly correspondence fictitious names given at post offic windows. clandestine meetings at parks, and at ferry gates, and in hotel parlors, and conjugal perjuries are among the ruinous results. When a woman, young or old, gets her head thoroughly stuffed with the modern novel she is in appalling peril. But some one will say: "The heroes are so adroitly knavish, and the the turn of the story so exquisite, and all the characters so enrapturing, I can not quit them." My brother, my sister, you can find styles of literature just as charming that will elevate.

Story your nerves, and lor a time delightful to all your physical and mental constitution, is the peril awful. Remember Jonathan and the forbidden honey in the woods of Bethaven.

Furthermore

One book for you or me may decide everything for this world and the next. It was a turning point with me when, in a bookstore in Syracuse one day, I picked up a book called "The Beauties of Ruskin." It was only honey, and I was not satisfied until I had purchased all his works, at that time expensive beyond an easy capacity to own them, and with what delight I went through reading his "Seven Lamps of Architecture" and his "Stones of Venice" it is impossible game of whist or euchre?" Do not brag about your total abstinence, because it is not from any principle that you reject alcoholism, but do us any harm?" Perhaps not, but for the reason that you reject certain how will you feel if in the great day of styles of foot-you simply don't like eternity, when we are asked to give the taste of them. But multitudes of an account of our influence, some man people have a natural fondness for all should say: "I was introduced to much that it makes them smack their your house, and I went on from that lips to look at it. They are dyspeptic and they like to aid digestion; or they are annoyed by insomnia, and they and lost my morals, and lost my soul, take it to produce sleep; or they are and these chains that you see on my troubled, and they take it to make wrists and feet are the chains of a

Oh, taste onl see that sorry it is going to cost me and my family and all the world's population turn to gall. For many things I have adso much, but here it goes to my lips, and mired Percy Shelley, the great English and down my heated throat, the sweetest, the most inspiring, the most de-licious draught that ever thrilled "Queen Mab" has in it the maligning a human frame." He was in great recommended in the books, one additional shot or bullet each day, which was 24 feet long he was coming until the bullets would entirely fill up | saw many boats tossed in this squall, the glass, and there was no room for the inebriate would be cured. Whether any one ever was cared in that way I know not, but by long experiment it is found that the only way is to stop short off, and when a man does that he needs God to help him. And there count when God has so helped the man that he left off the drink forever; and I could count a score of them some of them pillars in the house of God.

take warning from some of the ominous names given to the intoxicants and stand off from the devastating influence. You have noticed, for instance, that some of the restaurants are called "The Shades," typical of the fact that it puts a man's reputation in the shade and his morals in the shade, and his prosperity in the shade, and his wife and children in the shade, and his immortal destiny in the shade. Now, find on some of the liquor signs in all our cities the words "Old Crow," mightily suggestive of the carcass and the filthy raven that swoops upon it. "Old Crow!" Men and women without numbers slain of rum, but unburied, and this evil is pecking at their glazed eyes, and pecking at their bloated cheek, and pecking at their destroyed manhood and womanhood, thrusting beak and claw into the mortal remains of what was once gloriously alive, but now morally dead. "Old Crow!" But tors was thrust into his hands, walking right on to meet the dagger that was to take his life. This infatuation of strong drink is so might: in many a man that, though his fortunes are crashing, and his health is crashng, and his dometic interests are erashing, and we hand him a long eroll containing the names of perils that await him, he goes straight on to physical, and mental, and moral assassination. In proportion as any style of alcoholism is pleasant to your taste and stimulating to your nerves, and for a time delightful to all your phys-

gence must be put in the list of temp-tations delicious but destructive. You on the tracks, but thoughtful breeders are beginning to believe that a better bred, better looking and faster son of his sire will out breed the parent. The successes of Allerton, Axtell, Bow Bells and others have incited breeders to look to the fast young stallions for the best results to be had in breeding.

Just as charming that will elevate, and purify, and enoble, and Christianize while they please. The devil don't own all the honey. There is a wealth of good books coming forth from our publishing houses that leave no excuse for the choice of that which is debauching to body, mind and soul.

It is absurd for those of us who have never felt the fascination of mind with an intelligence that will yet either make her the ch'ef attraction of the temptation.
